

"CASCARETS" FOR SLUGGISH LIVER

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now. Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

WORKS ALL DAY
And Studies at Night on Grape-Nuts Food.

Some of the world's great men have worked during the day and studied evenings to fit themselves for greater things. But it requires a good constitution generally to do this.

A Ga. man was able to keep it up with ease after he had learned the sustaining power of Grape-Nuts, although he had failed in health before he changed his food supply. He says:

"Three years ago I had a severe attack of stomach trouble which left me unable to eat anything but bread and water.

"The nervous strain at my office from 6 A. M. to 6 P. M. and improper foods caused my health to fail rapidly. Cereal and so-called 'Foods' were tried without benefit until I saw Grape-Nuts mentioned in the paper.

"In hopeless desperation I tried this food and at once gained strength, flesh and appetite. I am now able to work all day at the office and study at night, without the nervous exhaustion that was usual before I tried Grape-Nuts.

"It leaves me strengthened, refreshed, satisfied; nerves quieted and toned up, body and brain waste restored. I would have been a living skeleton, or more likely a dead one by this time, if it had not been for Grape-Nuts."

LIND FOR DRASTIC ACTION

President Wilson's Representative Recommends Breaking Off Relations With Mexico.

The City of Mexico.—It is known here John Lind has recommended all diplomatic negotiations with Mexico be terminated. Government officials, foreign residents and the people of Mexico realize that the relations between this country and the United States are strained almost to the point of war, but there is perhaps no man in the entire republic who knows what Washington will do. John Lind himself, who represents the President of the United States, is ignorant of the intentions of his chief and if General Huerta is anxious at all regarding what may develop he does not betray it.

Mr. Wilson Making Plans.
Washington, D. C.—Foregoing his usual custom of banishing official business on Sunday, President Wilson worked practically the whole of the day on the Mexican problem. He did not go to church, remaining indoors during the forenoon. Later he summoned Senator Borah and Senator McCumber, Republican members of the senate foreign relations committee, and spent nearly two hours with them in general discussion of the situation. At night the President conferred at length with Secretary Bryan.

INDIANS MAKING THREATS

Angered at the Arrest of Tribesmen Navajos in New Mexico Talk of Massacre.

Santa Fe, N. M.—In response to an appeal, United States Marshal A. H. Hudspeth, accompanied by a force of deputies, prepared to leave for Shiprock Agency on the Navajo Indian Reservation, where a massacre is threatened by a band of several hundred renegade Navajos. The officers are taking high powered rifles and a large supply of ammunition with them and are going prepared for any emergency.

W. T. Sheldon, agent, reported to the marshal's office that the situation is grave, adding that the Indians have sent word of their intention to attack the agency and wreak vengeance because of the attempted arrest a few days ago of eleven of their fellow tribesmen for alleged rioting, assault and bigamy.

THE DAWSON MINE DISASTER

Official Report Says That Explosion Was Caused by "Shot" Fired Contrary to Law.

Santa Fe, N. M.—In an official report just made public the state mine inspector, Rees H. Beddow, who investigated the mine disaster at Dawson on October 22, in which 261 miners and two helmet men lost their lives, declares the explosion which wrecked the mine was due to the firing of an overcharged shot in one of the rooms by a miner. This shot in turn stirred up and ignited the coal dust in the surrounding workings, causing a second and more terrific explosion which wrecked the mine and entombed 264 men. The shot was fired from the trolley wire during working hours, the full shift being at work in the mine, says the report. This was contrary to the mining laws and to the rules of the company.

FELIX DIAZ UNDER ARREST

The Deposed Mexican General Charged With Shooting His Assassin—Wounds Not Dangerous.

Havana.—General Felix Diaz was arrested here and accused of shooting Pedro Guerrero, the young Mexican wounded by a bullet during an altercation, in the course of which Diaz was wounded slightly.

General Diaz is said to have handed the revolver to one of his companions after he had shot Guerrero and dangerously wounded him. Guerrero had stabbed Diaz.

TRAINING FOR PRETTY BOY

Tired Taxpayer Has His Own Idea of What "Handsome Harry" Should Learn.

"My neighbor, Sam Jonesby, has a particularly handsome boy," remarked the tired taxpayer, "and I am devoting my spare moments to inducing Sam to train the youngster for the prize ring, in the interest of his future life, liberty and the pursuit of happiness. Not that I feel assured the boy has a great future in the squared circle, but because Handsome Harry should always be able to fight if he wants his life to be something besides a bulky burden. A homely boy with freckles and bristly hair and knock knees can learn to chew tobacco and spit through his teeth, and get through life easily without great athletic ability, but a childish cherub should have an early knowledge of footwork, left jabs, hooks and right crosses and other technical training of the fight game in order to establish respect suddenly and when it is most needed. Otherwise, he will be known as a sissy and a girl-boy, and he will frequently be forced to break his heart alone. Although no one would think it now, I used to be my mother's darling, and know what I'm talking about."—Atchison Globe.

Bad Calculation.
